Steve Sosebee
Palestine Children's Relief Fund
P.O. Box 1926
Kent, OH 44240

Dear Steve Sosebee:

On behalf of Charity Navigator, I wish to congratulate Palestine Children's Relief Fund on attaining the coveted 4-star rating for demonstrating strong financial health and commitment to accountability and transparency.

The nonprofit sector is advancing and expanding. As our organizations evolve, so do the desires and interests of our supporters. Astute donors are yearning for greater accountability, transparency, and for concrete results from us. With more than 1.5 million American charities, Charity Navigator aims to accentuate the work of efficient and transparent organizations. The intent of our work is to provide donors with essential information to give them greater confidence in both the charitable decisions that they make and the nonprofit sector.

Based on the most recent information available, we have issued a new rating for your organization. We are proud to announce Palestine Children's Relief Fund has earned our tenth consecutive 4-star rating. This is our highest possible rating and indicates that your organization adheres to sector best practices and executes its mission in a financially efficient way. Attaining a 4-star rating verifies that Palestine Children's Relief Fund exceeds industry standards and outperforms most charities in your area of work. Only 3% of the charities we evaluate have received at least 10 consecutive 4-star evaluations, indicating that Palestine Children's Relief Fund outperforms most other charities in America. This exceptional designation from Charity Navigator sets Palestine Children's Relief Fund apart from its peers and demonstrates to the public its trustworthiness.

Forbes, *Business Week*, and *Kiplinger's Financial Magazine*, among others, have profiled and celebrated our unique method of applying data-driven analysis to the charitable sector. We evaluate ten times more charities than our nearest competitor and currently attract more visitors to our website than all other charity rating groups combined, thus making us the leading charity evaluator in America. Our data shows that users of our site donated more than they planned to before viewing our findings, and in fact, it is estimated that last year Charity Navigator influenced approximately \$10 billion in charitable gifts.

Your achievement and the 4-star rating will enhance your organization's fundraising and public relations efforts. Our favorable review of Palestine Children's Relief Fund's financial health and commitment to accountability & transparency is now visible on our website.

We wish you continued success in your charitable endeavors.

Sincerely,

Michael Thatcher
President and CEO

Dear Friends,

2021 was a year of various humanitarian challenges for the children of the Middle East. First, the Covid-19 pandemic continued to divert limited resources in already overstretched public health systems and the marginalized communities that depend on them; economic growth and development remained stagnant and, in some cases, even recessive, limiting access to health care. Then, in May, the two million-plus people living in the Gaza Strip endured 11-days of bombings that destroyed infrastructure and injured and killed hundreds of civilians.

On May 12, the main PCRF office in Gaza City was destroyed, although thankfully, no one was hurt. Despite these enormous challenges, we continued to provide hundreds of children with medical care that they otherwise could not get through our One-Time Sponsorship program. In addition, we provided support for sick children in our two pediatric cancer departments, which we opened in 2013 in Beit Jala and 2019 in Gaza. In 2021, we continued building our two main infrastructure

projects at the Palestine Medical Complex in Ramallah- a new pediatric ICU and cardiology department. Both are planned to open in the first half of 2022 and will begin helping the children of Palestine.

In addition, in 2021, we opened a new NICU in Jenin Hospital, among other projects throughout the West Bank. In Gaza, thousands of children affected by war and closure, COVID, poverty, and other factors received urgent humanitarian relief. In Lebanon's camps, we provided food for thousands of refugees impacted by the economic and political crisis.

In 2022, PCRF plans to continue to focus on the urgent humanitarian needs of children and the long-term development of the public health sector. As a grassroots non-profit, your support makes our work possible. We hope that you will continue to support our relief efforts in 2022 as we work to address the humanitarian needs of children in the Levant.

Thank you

2021

Volunteer Medical Missions

Our Medical Missions Program was suspended in early 2020 due to the rapid spread of COVID-19 that has placed significant and increasing restrictions on the travel of people all over the world, within countries, and across borders. Despite these challenging circumstances, we managed to support 9 medical missions to the Gaza Strip and Jordan that screened 415 cases and treated 318 needy patients.

Gaza Transplant Programs

In 2021 we were able to continue to support the building of a vascular and kidney transplant program. Thirty-three kidney transplant operations were performed at Shifa Hospital in Gaza. The goal of this program is to help build an independent kidney transplant and Vascular program there, so patients do not have travel outside for care they can get locally.

Mission Leader	Specialty	Team Members	Hospital	Location	Cases Screened/ Treated
Dr. Aghyad Mubaid	Dental Mission	4	Cancer Department & Al Quds	Gaza	145/145

Treated

2021

Patient Affairs

Sending injured and sick children abroad for free treatment is how PCRF started over 30 years ago. Our Travel Abroad Program has helped treat thousands of children from the Middle East at no cost to the family. In 2020 and 2021, the Covid pandemic impacted our ability to send children abroad. However, in 2021, we managed to send four children for treatment abroad.

Travel Abroad Program

**CHILDREN
TREATED
ABROAD**

Child's Name	Traveled From	Traveled to	Hospital	Purpose of travel
Mohammed Mekky	Central Gaza	Egypt	National Liver Institute	Liver Transplant
Kareem Hamayda	South Gaza	Oman	Khoulia Hospital	Neurosurgery
Hamed Almassri	Nablus	Jordan	The Specialty Hospital	Reconstructive Surgery
Mariam Buriat	Ramallah	Cincinnati/USA	Cincinnati Children's Hospital	Esophageal surgery

One-time Surgical Sponsorship

Each week we identify children who need surgery in Lebanon's refugee camps and Jordan, who are going without care due to the lack of access to treatment for financial reasons. We procure hospitals to get reduced prices and save lives. In 2021, due to the inability of PCRF to bring medical missions to the West Bank due to COVID-19, we added the West Bank to the program. In spite of the challenges, and thanks to our many donors, over 800 children received surgery through this sponsorship program.

Area	Cases Treated
West Bank	440
Jordan	220
Lebanon	174
Total	834

2021

Humanitarian Programs and Projects

For 30 years, we have been helping children in the Middle East through a wide variety of humanitarian programs and projects. 2021 was a year of an even greater urgency in responding with effective humanitarian interventions due to conditions on the ground, especially in Gaza following May's aggressions. The following humanitarian programs and projects outline our support for children in the Middle East.

One-time Medical Sponsorship

Each week we appeal to our donor community to sponsor children in the Middle East in need of medicine, medical care or other humanitarian support that they cannot get locally. In 2021, we sponsored 860 children in need of one-time sponsorship.

Location	Medication & Milk	Orthotics	Supplies	Hearing aids	Oher	Totals
West Bank	97	75	45	85	130	432
Gaza Strip	77	134	15	49	2	277
Jordan	23	13	2	10	5	53
Lebanon	8	73	8	4	5	98
Total	205	295	70	148	142	860

Gaza Mental Health Program

Due to the ongoing exposure to violence and trauma, as well as poverty and the closure of Gaza, Gaza's one-million children suffer a high rate of mental health issues and needs. Gaza's women and children are the most vulnerable members of society. Following the 55-day bombing of Gaza in 2014, PCRF set up a mental health program under our medical advisory board to put together a team on the ground to provide effective interventions for target groups, such as children in our pediatric cancer and amputee programs. Our team in 2021 supported and treated 766 children from all over the Gaza Strip, providing group and individual therapy sessions, peer support group sessions, and family support through home visits.

Target group	Cases
Cancer patients	211
Blood diseases	72
Cystic fibrosis	30
Trauma	348
Amputees	85
Dialysis	20
Total	766

Monthly Disabled Child Sponsorship

In 2000, we launched a monthly sponsorship program for chronically disabled or ill children whose families were unable to provide them basic medical support. In 2021, our monthly child sponsorship program supported 834 children and 9 Syrian/Gaza families, this included

Gaza orphans, and other children. This program is thanks to the hundreds of monthly sponsors throughout the year who provide support to these children on the ground. We also partner with the Zakat Foundation to help provide hundreds of Gaza orphans sponsorship.

Location	Beneficiaries
West Bank	186
Gaza	114
Jordan	10
Lebanon	32
Total	342

Monthly Gaza Orphans Sponsorship

Location	Orphans	Syrian Families
North Gaza	111	0
Gaza City	106	2
Central Gaza	107	0
South Gaza	159	7
Total	483	9

Summer Camps

For over ten years, PCRF has been sponsoring summer camps for different target groups. Following the May aggression on Gaza, we organized five summer camps for 80 children with cancer, a second “Camp Ability” for 80

amputee children, and 180 children who were displaced by bombings. These camps focused on educational and social activities, mental health services, and other events which helped to reduce their hardships and anxieties.

340 children participated in the camps

2021

Urgent Gaza Relief

In May, an 11 day bombing campaign on Gaza resulted in another humanitarian catastrophe that left one-million Gaza children facing huge needs. In response, we implemented a variety of urgent relief programs and projects that addressed issues of health care, socio-psychological support, humanitarian aid, and other direct relief for thousands of children.

Project	Beneficiaries
Supporting MOH Covid Training	120
Gas stoves & cylinders w/vouchers	1,890 homes
Medical Equipment for EGH	1
Pediatric Diabetic Support	148
Hearing Aids	6
Nebulizers	610

Toys distribution	750
Medical Supplies from Ramallah	MOH
Baby Milk Formula	1080
Gas cylinders Refill Vouchers	1300
Medical Shoes	200

2021

Gaza Amputee Program

Two years ago we launched a humanitarian initiative to support amputee children in Gaza by providing them psychosocial support and medical care at Hamad Hospital for Rehabilitation and Prosthetics. In 2021, 109 amputees benefited from this program. We also sponsored activities throughout the year, including group therapy sessions, field trips, and other outings, improving the children's quality of life.

Beneficiaries	Services provided
83	Logistics
45	New prosthesis and adjustments
7	Received upper limbs
31	Rehabilitation
20	Received prosthetic components
3	Received a trial prosthetics
5	Received assistive devices
3	Received psychiatric medications

109 Amputees benefited

2021

Our Pediatric Cancer Departments

Before we opened the first public pediatric cancer department in Palestine in 2013, every child with oncological and hematological disease had to travel away from their families outside of the West Bank and Gaza Strip for medical care. Thanks to our donors all over the world, we have built, and continue to support, two pediatric oncological centers of excellence in which hundreds of children have free access to cancer care near their families and communities.

Huda Al Masri Pediatric Cancer Department

In 2013 we opened Palestine's first and only public pediatric cancer department named after our founding head social worker Huda Al Masri, whose dedication, hard work, and leadership helped to build PCRF for 17 years until she passed away from leukemia in 2009. Since then, hundreds of children have had life-saving surgery for free in the department. In 2021, we supported child-life service and other humanitarian aid for patients and their families, and in September we opened a new wing of the department to enable expansion of care. In 2021, 1,141 children were helped: 200 inpatient and 941 outpatients, while 685 other patients had clinical medical care.

Activity	Unit	Number of Beneficiaries
Birthdays	Children	4
Eid Clothes	Children	25
Ramadan Meals Iftar (Mothers)	Meals	97
Make a wish	Children	10
Staff Gifts (Ramadan)	Person	22

Christmas Gifts (Staff)	Person	65
Christmas Lunch	Person	31
Storyteller	Children	60
Physiotherapy	Children	40
Red Noses	Activity	52

Dr. Musa and Suhaila Nasir Pediatric Cancer Department

In 2019 we opened the first and only pediatric cancer department in Gaza, named in honor of two co-founding members, Dr. Musa and Suhaila Nasir.

In 2021, 246 children had treatment in the department. We also began offering dental health care for patients and treated 145 children through 429 procedures.

Chemotherapy

In 2021, we purchased \$146,000 worth of chemotherapy drugs to help offset shortages in the hospital stores. This reduced the referral of many children outside for care.

Nutrition

As the health system in Gaza does not provide food for inpatients, we partnered with other charities to sponsor three meals daily for the children during their treatment.

COVID 19 and protection measures

We supplied Personal Protective Equipment and supplies (PPE's) to ensure patient and staff safety and bridge the gap caused by the shortage of supplies by MOH.

Activity	Unit	Number of Beneficiaries
Hygiene kit	Children	60
Eid Gifts (Adha and Iftar)	Children	100
Ramadan Meals Iftar (Mothers)	Meals	297
Make A Wish	Children	3
Summer Recreational Activities	Children	77 children/74 mothers
Food vouchers	family	86
Diapers for cancer children	Children	40
Schoolbags	Children	100
Mothers Recliners	Recliners	16
EID clothes	Children	25
Birthdays	Children	6

2021

Projects

Our infrastructure projects aim to make a sustainable impact on the quality and availability of public health services in Palestine. The projects that are focus on filling gaps to improve public health services. In 2021, we completed construction of \$5.6M and began construction of over three million more projects for 2022.

Small Projects

Area	Completed Projects

	Rehabilitation and Equipping the Ophthalmic Department at AlMuhtaseb Hospital	April 2022
Qalqilya	Extension and Renovation of the Neonatal Department at Darwish Nazzal Hospital	March 2022

2021

Chapters

Our 30-year success as a grassroots nonprofit organization is due to the support of our volunteers from all over the world, which include both medical volunteers, and our community volunteers who form our growing network of chapters, student clubs, and Team Palestine for PCRF. They dedicate their time and efforts to help injured and sick children who we send to their communities for medical care, and raise funds to help us implement our humanitarian work. Although the COVID pandemic continued to impact our events in 2021, our chapters still managed to organize various fundraising and awareness events to enable us to achieve our humanitarian relief work on the ground. Without the commitment of these volunteers, we would not be able to save lives and bring hope to thousands of children each year in the Middle East.
